

Omega-3 DC Powder

Omega-3 in tablet form,
using a new and unique technology.

This offers some attractive options for your company:

- Target your supplements by preparing tablets containing omega-3 and other active ingredients.
- Add colour and taste or modify shape or size, all without compromising stability.
- Develop new formulations fulfilling claims for eye, brain or joint health and other conditions requiring omega-3.
- 1 gramm of powder contains 50% of the recommended daily dosage of omega-3 (EPA + DHA) according to WHO.

Benefits

- Multiple product opportunities
- Proven bioavailability
- No reflux or aftertaste
- IP protected
- High oxidative stability
- No gelatin
- No taste or odour
- No lactose
- Shelf life of 2 years
